Krutika Kamble, a third-year B.Tech student in Artificial Intelligence and Machine Learning (AIML) at D.Y. Patil College of Engineering and Technology, possesses skills in HTML, CSS, C, Python, and Unity, with a focus on integrating these technologies to develop innovative solutions

Dr. Tanvi Patil, Ph.D. in Computer Science and Engineering (Shivaji University, 2020), specializes in AI and Machine Learning, particularly in healthcare applications. With 8 years of teaching and 2 years of dedicated research, she is an Assistant Professor in the CSE (AIML) department at DYPCET, Kolhapur (Autonomous). A passionate educator, she actively contributes to advancements in AI and its diverse applications.

Dr. Siddheshwar V. Patil, Ph.D. in High-Performance Computing (Walchand College, QIP Scheme), has 17+ years of expertise in AI, Machine Learning, Data Science, and Parallel Programming. Proficient in Python, Java, C/C++, and PHP, with experience in robotics and 3D design, he has 20+ publications in top-indexed journals, delivered expert talks, and actively reviews for leading conferences. Currently an Associate Professor at DYPCET, he oversees academic initiatives and accreditation. Dr. Patil seeks a postdoctoral role to advance AI/ML, HPC, and Robotics research.

BIOGRAPHIES

Shraddha Patil, a third-year B.Tech student in Artificial Intelligence and Machine Learning (AIML) at D.Y. Patil College of Engineering and Technology, specializes in Unity AR, Python, and frontend development, with a keen interest in applying these skills to advance technological research and development.

Radhika Kachare, a third-year B.Tech student in Artificial Intelligence and Machine Learning (AIML) at D.Y. Patil College of Engineering and Technology, possesses expertise in Unity-based Augmented Reality (AR), Python programming, and frontend development, focusing on leveraging these skills to create innovative solutions in technology.
