Abstract - The project "Photographer Profiling and Hiring" is an online website where customers can get registered themselves and look after professional photographers for various occasions such as birthdays, baby showers, weddings and many more occasions to be held. This particular website can reduce the human efforts and precious time as customers can get photographers online instead of going places and searching them. And at this era, as it is "Digitalize India" people look things firstly on internet so this particular website would help them in many ways.

Key Words: photographer hiring, photographer profiling, events, dates, feedback

1. INTRODUCTION

If you have a special occasion coming up in your life that you'd like to record as a keepsake and you are looking to hire a photographer, our website would help in getting them. One can hire a photographer using our website for any occasion such as wedding, birthday, or any functions.

The main agenda of making this fully fleshed website is that to provide users need at tip of hand as if whenever the user visits our page by signing in or creating their personal account. They are presented with an interactive page and upto date menus with eye catching GUI (graphical user interface) which makes users to use it very easily and get on the things which they are looking for without any workload.

1.1 Literature Survey

During information gathering and development phase of this particular website, we went through several papers which has similarity to our website. One of them is "Online Car Rental Using Web Based and SMS (2016)" this includes online booking of a car within few clicks only. Some people can not afford to have a car, for those people this system becomes very helpful as this system includes various cars, as per the customer order and comfort, it places the order and delivers the car as per the location within the area. There's an article written by known and one of the best and destined photographer, [Tina Smith], she has mentioned the same idea about hiring photographers

1.2 Existing system and proposed system

In the present scenario, some of the photographer hiring sites doesn't include payment mode, which has led to one of the drawbacks.

And some photographer's aren't the professional one's, because the quality of photographs depends on type of photographers you're hiring.

But the proposed system overcomes all the drawbacks and all the disadvantages with the better GUI (graphical user interface) to make it more interactive and secure payment mode through which user can make payment securely without hesitation.

2. Benefits Of Online Photographer Profiling And Hiring

1. Very interactive and easy to use.
2. Better graphical user interface.
3. It saves a lot of time as people will be able to search photographers online instead of going places.
4. A payment mode has been included by which users will be able to make payment securely.

3. Implementation

Module description:

Admin login

After login admin can maintain all the works like Admin can create profiles, can also rate photographers as per the work scheduled and can also proceed by adding and removing the created profiles.

User Login

User can look after various professional profiles according to their type of events and also through recommendations after signing in. They can hire a photographer by providing date and also by mentioning his type of event.

Photographer Login

Here a photographer will create his own profile by signing in and can add his details of skills in photography.

Photographer can include his clicked pictures in his profile so that user who is looking for photographer can check out .

Feedback

Satisfied users can leave a testimonial regarding the service provided whether it be a positive or negative because this will help the other users to makeout about their work.

Payment mode

User after successfully hiring a photographer, can make payment using online through PhonePe.

CONCLUSION

Obviously efficient compare to manually work. Due to online based it literally saves precious time. It being a good platform, we can update and add new professional photographers, which truly adds up as a productive thing. This website will surely bring the comfort to the customers i hiring photographer in efficient and reliable way.

ACKNOWLEDGEMENT

We would like to thank our guide Prof. (Mrs.) Vaishali Yeole, Associate Professor, K. C College of Engineering & Management studies & Research, Thane, for initiating me into this field of research and for providing me with the necessary guidance, great encouragement throughout the preparation of this paper. I take this opportunity to express my gratitude to the Staff members, Non-Teaching Staff members and Research Scholars of the Department of Computer Engineering, K. C College of Engineering & Management studies & Research, Thane, for their timely help and encouragement. I record my deep indebtedness to them for their support.
